

Long Life Landscape 12V 20 Watt PAR36

GE Long Life PAR 36 lamps –Dependable, energy saving, long life lighting – Ideal for landscape lighting installations

Reduce Maintenance Costs

- Exceptional rated life - 5000 hours.
- Up to 2.5 times long life than incandescent

Energy Efficient

- Can replace Higher wattage Lamps
 - 25 Watt incandescent with 20% energy savings and more candlepower
 - 35 Watt incandescent with 43% energy savings with same candlepower
- Lower wattage allows for more fixtures per circuit

Design Flexibility

- Four beam spreads –ideal for most applications.
- 8 degree VNSP to a 70 degree VWF,

Sealed Beam Leadership

- Utilizing flame-seal construction helps to ensure the lamps will not be impacted by moisture.
- GE's expertise and technology provide a product that will fit properly, and will function consistently.

Excellent Color

- Halogen provides crisp white color
- Consistent color temperature from lamp to lamp

Applications

Commercial Landscape

Hospitality: Restaurants, Hotels

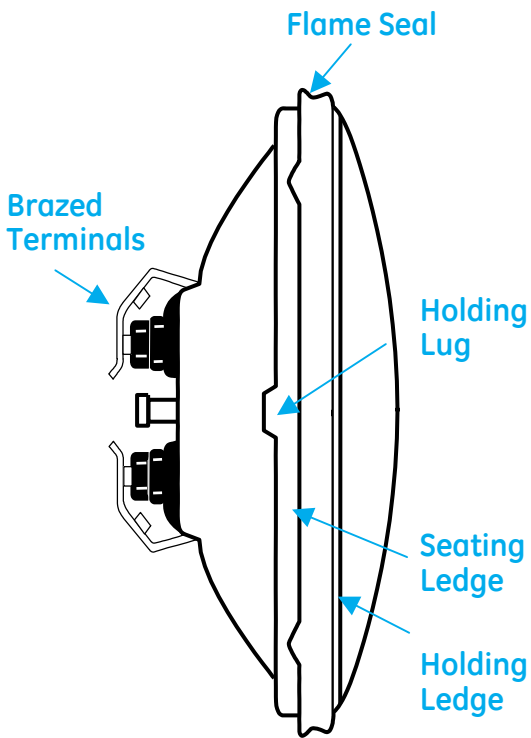

Residential: Architectural Landscape
